

My Faith Journey-

Create a visual representation of your faith journey through the major stages of your life...childhood, adolescence, adulthood: young, middle, older

- What were the significant faith/religious experiences and events that shaped your faith life at each stage?
- How did they shape your faith?
- What role did your family, ethnic culture, significant relationships, and church community have in these experiences?
- How did you experience God at this stage of your life? How would you describe your relationship with God at this time?
- How did you practice your faith at this stage of your life? What were important ways you practiced your faith at this time?

Reflect:

- I discovered...
- I was surprised by...
- I was disappointed by...
- I never knew...
- I now recognize...
- I was impressed by...
- I was happy about...
- I was saddened by...
