

## 2019 Worship Series

\*Developed by Prince of Peace Lutheran Church, Burnsville, MN

### Called

*Using Kathleen Cahalan's book, the purpose of this series is to provide a theological framework, language and space to explore the various callings in our life. Ultimately, we want to begin help our disciples to see that all of life is a response to God's call, that our stories are intimately and inextricably tied to God's larger story. We'll use the biblical narrative to help tease out our own narratives, and give people time, space and resource to do that work individually and in small group. I'd recommend we produce or utilize a book study for individuals and small groups using Cahalan's book "The Stories We Live". This series would also provide a great opportunity for some intergenerational work...parent resources, an intergenerational meal, etc.*

## **Transformed II**

*The journey of spiritual formation is a journey of change, of transformation wrought by the Spirit. We are called and changed from one thing to another. This series will explore how people have been called from things like fear and greed to courage and generosity. Each week we'll explore the theme through biblical story and personal story/testimony. We'll also use this series to help our disciples write and tell their own faith story, using the iterative process received at the C3 Conference. This would be an excellent series for us to create our own small group materials.*
